

CAPABILITY STATEMENT

Engineering | Construction Support | Mission Support

PKD Mission Systems, LLC provides engineering, construction support, technical services, and mission support to government agencies, prime contractors, and commercial organizations throughout the Southeast.

CORE COMPETENCIES

Engineering and Technical Services

- Mechanical design, technical analysis, systems integration, and prototyping support.
- Research, development, testing, technical documentation, and drawings.

Construction and Infrastructure Support

- Project management, construction coordination, and facility and site support.
- Construction oversight, quality, safety, regulatory and environmental support, and waste-management planning.

Mission and Program Support

- Program and project management; logistics and supply chain coordination.
- Cybersecurity and IT support; technical services, training, workforce development, and administrative support.

Defense and Specialty Support

- Defense engineering and aerospace program support.
- Maritime and coastal infrastructure, equipment maintenance support, and special technical projects.

DIFFERENTIATORS

- Backgrounds in mechanical engineering, chemistry, mathematics, and educational leadership.
- Beaufort presence serving South Carolina, coastal Georgia, and the Southeast.
- Teaming across engineering, technical, academic, and industry disciplines.
- Committed to veteran recruitment and teaming with certified veteran-owned firms, including VOSBs and SDVOSBs.

INDUSTRIES SERVED

Defense and government • Aerospace and aviation • Maritime and coastal • Construction and public infrastructure • Environmental and industrial services
